5 WAYS TO ADVANCE YOUR CAREER AND MAKE AN IMPACT

At Goshen College, we understand that working adults may face challenges in advancing their personal and professional goals. Our goal is to remove those obstacles, equip you with the skills and knowledge to boost your career and help make the world a better place.

1

Take your learning — and leadership — to the next level

Whether you want to earn a degree, certificate or licensure, take the knowledge and skills you already have and connect them with new ones to pursue what you feel called to do next in your life and career.

2

Gain expertise from mentors who care

Faculty serve as the cornerstone of a Goshen College education. Not only are they industry experts who provide unparalleled expertise, but they also serve as mentors throughout your educational and professional journey. Online or on campus, our professors are caring and dedicated to your success.

3

Build networks that last a lifetime

Our students bring diverse experiences and perspectives with them to the classroom. And, thanks to our signature small class sizes, you and your peers will be able to form close, collaborative networks and share your experiences to enrich one another's education.

4

Earn credentials with true value

Earning your degree, certificate or licensure isn't just about a goal — it's about building a career and answering a calling. The worth of a Goshen College degree comes not just in its affordable price tag and financial aid options but also in the lasting value it holds personally and professionally. Because of the quality of our programs, our graduates are highly sought after regionally and nationally.

5

Be real-world ready

We incorporate practical experience into the classroom, because we believe that you learn by doing. Hands-on educational opportunities, combined with an intercultural approach to learning, give you the skills you need to thrive in diverse work environments as an in-demand leader.

Take a closer look at our programs designed for busy adults and advance toward your goals.

BACHELOR OF SCIENCE IN COMMUNICATION

With communication being one of the top skills that employers look for, this broad degree from our award-winning Communication Department can help you advance in nearly any industry.

BACHELOR OF SCIENCE IN SOCIAL WORK

Offering flexible evening classes, our #1-ranked social work degree completion program is the only 20-month program of its kind in the region.

RN-BSN

Designed for RNs who are actively working, our RN-BSN program is one of the top-ranked programs in the state. With 100% online flexibility, this program can be completed in as few as 12 months and clinical hours can be completed at your current place of employment.

Licensure and certificate programs

TRANSITION TO TEACHING PROGRAM

If you have your bachelor's degree and want to obtain your teaching license, this program provides the technical education and student teaching experience you need to reach your goals in just 18 months.

TRANSITION TO INTERPRETING PROGRAM

This 18-month program prepares you to be a licensed interpreter and to begin your career as a communication bridge between members of Deaf and hearing communities in places as diverse as hospitals, schools, courtrooms, concerts, plays or sporting events.

ENGLISH LEARNER (EL) LICENSURE ADD-ON

Through this affordable, one-year program, working teachers can develop the skills and knowledge they need to effectively teach English language learners and will have the opportunity to put their new skills into practice through field experiences.
